Our range of floor tiles are sourced in line with international trends ensuring the latest fashion is available for the discerning connoisseur looking for that specific upmarket trendy look. The combination of nature soul like sand, stone, water, rust and snow is resembled in all our floor tile designs.

FLOOR TILE COLLECTION

Tiles are a fundamental part of a building, determining the aesthetic style of both residential and commercial settings. The choice of floor tiling must be made according to the end result you wish to achieve, and according to the furnishing of each setting, which should as far as possible match the porcelain tiles, to create a uniform, harmonious effect; when replacing a floor in a renovation project or laying a new floor in a newly built property, there is a vast range to choose from, allowing you to create your own.

Our floor tile range portrayed in this collection provides an all round experience from entry level small format to high end large format slabs in various texture, shiny and matt glazed and full body finishes to multi faced ink jet technology. This provides the user with a resourceful broad spectrum of applications from domestic to corporate.

A wide-angle photograph of a savanna landscape. In the foreground, a stone wall made of reddish-brown stones runs across the frame. To the left, two wooden chairs with vertical slats are visible. The middle ground is a vast, green savanna with scattered trees. In the background, there are rolling hills under a clear sky. A white rectangular box is overlaid on the top left, containing the text 'Inspired by NATURE'.
