ONESTO[®]

Company Profile

As an active player in electrical manufacturing industry over 19 years, **ONESTO** is committed to providing quality assured products for application in power distribution, industrial control and new energy etc.

ONESTO is a name of quality that focuses on customer's safety and satisfaction. The company is operated under ISO9001:2015 Quality Management System. All the products are manufactured in conformity with BS,EN,IEC international standards and acquired CE,CB,UKCA,SAA,TUV,MEEI,Semko, KEMA-KEUR certificates.

ONESTO is undertaking intelligent manufacturing. The factory set up advance automated assembly and testing production line to secure high precision parts dimension, accurate automated assembly, outstanding technical performance and efficient production capacity. Onesto introduced advance ERP system to achieve full quality tracing for each step of raw material incoming, production process and delivery.

ONESTO always pursues constant product innovation to offer customers with comprehensive selection for commercial, industrial, residential project where quality is essential. Onesto owns independent intellectual property rights for its product range including domestic and international patents.

Today, customers over 60 countries are benefited from **ONESTO** products and solution for its reliable protection of electrical systems. As a well recognized partner with renowned companies around the world, **ONESTO** is ready to create new value and competitive advantages with partners for mutual continuously development.

Note: Suitable for type 45 fixing frame	

Soft pop-up type floor boxes

Patented product
Fraudulently copy must be investigated.

This product series has won domestic invention patent and new type practical patent. Compared with all kinds of normal pop-up floor box, it has the characteristics of long life, stable performance, little noise and safe operation etc. Pull the lock lightly, the pop-up mechanism will rise slowly, to solve the defects of short life, high noise, which caused by big impulse force.

The picture shows the structure of soft pop-up type floor box FLS-ZN-16. No additional instructions for other products as the schematic diagrams are similar to the product.

Terminal block code: FLS-TB-001
Fast connection terminal

- Hard wire insert connected;
- For wire 1mm²-2.5mm².

Terminal block code: FLS-TB-002
3 screws terminal

- Tight by screw;
- For hard wire & soft wire 0.5mm²-6mm²;

Terminal block code: FLS-TB-003
4 screws terminal

- Tight by screw;
- For hard wire & soft wire 0.5mm²-6mm²;
- More terminals connected, suitable for 3 phase 4 wire.

Terminal block code: FLS-TB-004
Weak current clamp terminal

- Hold the wire more tight.

Fast installation procedures for modules & terminals

- **Functional parts, rapid assembly and disassembly of patent**
- Assemble and disassemble Module faster Modules are designed to be easily disassembled and assembled without tools, which reduce the appearance damage. New design betters the performance.

- **Terminal fast disassembly speed patent**
- Assemble and disassemble terminal faster Terminal can be disassembled faster without the tool.

- **Cushion patent**
- Use cushion as shock-absorber Cushion, reducing the shock force, has played the role of buffer.

- **The strength of electrical and line pressing patent**
- Install the electrical and electronic wires line at the same time Terminal can complete two wires' connection and installation at the same time

Patented product
Fraudulently copy must be investigated.

- Install the module in to metal frame properly

- Place the bracket plates along the guiding groove. (Sliding fasten will be automatically fixed itself in the hole)

- Press the terminal buckles and push the terminal forward. (The buckle would be fitted as soon as you release your hands)

- Terminal can fix electrical and electronic wires simultaneously.
